- What the workflow is doing in the testing, for example, explain your understanding of the workflow and the testing, like what happened. Only one short paragraph.

In this workflow, series of task was done in other to produce the results, like the installations of packages correctly. When the test is run, the Robot framework calls selenium and the selenium calls the chrome driver to produce the desired results.

- Why each test case Passed or Failed. Only one or two sentences for each test case.

- Verify Successful Login to OrangeHRM
[documentation] This test case verifies that user is able to successfully Login to OrangeHRM
[tags] Smoke
Open Browser <https://opensource-demo.orangehrmlive.com/> Chrome
Wait Until Element Is Visible id:txtUsername timeout=5
Input Text id:txtUsername Admin
Input Password id:txtPassword admin123
Click Element id:btnLogin
Element Should Be Visible id:welcome timeout=5
Close Browser

This test case passed perhaps because it has the correct Username and password and only one attempt to login was made.

```
Verify Successful Login to OrangeHRM
  [documentation] This test case verifies that user is able to successfully Login to OrangeHRM
  [tags] Smoke
  Open Browser https://opensource-demo.orangehrmlive.com/ Chrome
  Wait Until Element Is Visible id:txtUsername timeout=5
  Input Text id:txtUsername Admin
  Input Password id:txtPassword Admin
  Click Element id:btnLogin
  Element Should Be Visible id:welcome timeout=5
  Close Browser
```

This test case failed because the credentials were invalid.

```
Verify Successful Login to the-internet.herokuapp
  [documentation] This test case verifies that user is able to successfully Login to the-internet.herokuapp
  [tags] Smoke
  Open Browser https://the-internet.herokuapp.com/login Chrome
  Wait Until Element Is Visible id:username timeout=5
  Input Text id:username tomsmith
  Input Password id:password SuperSecretPassword!
  Click Element css:button[type="submit"]
  Element Should Be Visible css:[href="/logout"] timeout=5
  Close Browser
```

This test case passed because the username and password were successfully matched.

```
Verify Successful Login to the-internet.herokuapp
  [documentation] This test case verifies that user is able to successfully Login to the-internet.herokuapp
  [tags] Smoke
  Open Browser https://the-internet.herokuapp.com/login Chrome
  Wait Until Element Is Visible id:username timeout=5
  Input Text id:username tomsmith2
  Input Password id:password SuperSecretPassword!
  Click Element css:button[type="submit"]
  Element Should Be Visible css:[href="/logout"] timeout=5
  Close Browser
```

This test case failed because the username was invalid.
